

A series

Superclean **A**dhesive Rolls

The **A** series from Superclean is a range of high performance, high quality **A**dhesive rolls, commonly referred to in the industry as 'tacky rolls'. The Superclean **A** series is specifically engineered for Contact-Cleaning contamination removal systems. The range is available from stock in all widths from 10mm to 1500mm.

SC AR

Continuous Wind Roll - Paper carrier
20m length (65 usable layers per roll)
Cores: 1.5", 3" and 6" (38mm, 76mm and 152mm)

SC ARP

Perforated Rolls - Paper carrier
22m length (70 sheets per roll)
Cores: 1.5", 3" and 6" (38mm, 76mm and 152mm)

SC ARF

Continuous Wind Roll - Film carrier
20m length (65 usable layers per roll)
Cores: 1.5" and 3" (38mm and 76mm)

SC ARFP

Perforated Rolls - Film carrier
22m length (70 sheets per roll)
Cores: 1.5" and 3" (38mm and 76mm)

Superclean Adhesive Roll benefits:

- Stronger, rounder and straighter cores ensure constant, intimate contact with the elastomer cleaning roller
- Adhesive coating formulated for maximum particle retention with no risk of adhesive transfer
- Excellent quality and performance for lower cost delivering exceptional value
- Off the shelf product
